information management services >>

Harness the power of your company's information with WorldSolve Information Management Services.

WorldSolve's services are available individually or as a suite of information management services. We combine an understanding of your industry with technological expertise to deliver services that add functionality and value for your company. We maintain a focus on structured methodologies and innovation, working with you to envision new avenues to productivity - and providing the tools and knowledge to transform possibilities into business results.

We address your information management needs from both a business and a technology perspective. Our solutions enable your company to take full advantage of its resources to improve business performance, enhance strategic decision-making, increase competitive advantage, and maximize the return on your investment.

> **"WorldSolve builds a bridge between technology and business people. Both audiences can relate to them. They approach projects with creativity and sincerity and have a genuine desire to add value to their customers."**

About WorldSolve

WorldSolve is an information management consulting firm. WorldSolve's services - Operational Optimization, Enterprise Integration, and Application and Data Solutions - help companies align people, processes, and technology with business strategies to maximize performance and return on investment.

■ OPERATIONAL OPTIMIZATION

Align people, processes, and technologies with business strategies to achieve operational excellence and results with WorldSolve's Operational Optimization services:

- Business Strategy and Transformation
- Business Process Analysis
- Performance Measurement

WorldSolve builds the optimal information framework for your company, giving you the tools to monitor, analyze, and improve performance - and the guidance to turn information into business intelligence.

■ ENTERPRISE INTEGRATION

Connect people, processes, and technologies across your company and extended marketplace with WorldSolve's Enterprise Integration services:

- Enterprise Application Integration
- Extended Enterprise Integration
- Workflow Management

WorldSolve integrates new and existing technologies to improve information flow, quality, and access, ensuring that the right information gets to the right people in the right places, at the right time.

■ APPLICATION AND DATA SOLUTIONS

Expand existing software, incorporate new applications, and manage your company information with WorldSolve's Application and Data Solutions:

- Application Development
- Packaged Solutions
- Data Management

WorldSolve designs and implements software solutions applying structured design methodologies and leading tools to meet the unique requirements of your business.
